

SOUND  
NATIVE  
PLANTS

## 2010 - 2011 Retail Price List

Sound Native Plants is dedicated to growing native plants best suited for environmental restoration and mitigation projects in the Puget Sound area. We offer a wide selection of container-grown plants, live stakes and brush material, and we do contract growing. We employ ecologically sensitive methods for all of our propagation and maintenance. Sound Native Plants guarantees that all our plants are healthy, true to name, and of western Washington genetics. Our plants are USDA Certified Sudden Oak Death Free. Quantity discounts available.

Retail prices are available to customers without a business license (UBI) or a Federal Employer Number (FEIN). Existing customers with ongoing projects may contact us through December 2010 to request wholesale prices and will be considered on a case-by-case basis.

### Check out our website for more information

Our current availability is regularly updated on our website: [www.soundnativeplants.com/availability.htm](http://www.soundnativeplants.com/availability.htm). You will also find information and articles on the species we carry, species selection, when and how to plant, site preparation, project maintenance and much more; Sound Native Plants has over a decade of experience in all aspects of native plant projects—planning, growing, and installing—and we want to share our expertise with you!
